-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2 line 4, “distraction” has no antecedent basis.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over BRIDGES ET AL (US 5720156) in view of KAIHOVIRTA ET AL (US 6038789).

BRIDGES ET AL discloses a method of erecting a case from a blank, then filling, closing, and sealing the case. Case blanks are stored in a magazine (200). One of the case blanks is picked off (300) the stack, shuttled (400) to an unfolding and erecting station (500), and filled (see column 10:37-67). Prior to filling, the flaps are gripped and opened (see column 8:18-28). After filling, the flaps are closed and the case is sealed.

BRIDGES ET AL does not disclose hydrating the flaps, if necessary.

KAIHOVIRTA ET AL discloses a method of adding moisture to a web of paper or paperboard in order to prevent the paper from curling (deforming). KAIHOVIRTA ET AL discloses the cause of the curling problem to be dehydration (see column 3:62-4:5) and solves the curling problem by providing rehydration means (63A, 66A) to rehydrate the web (W) and prevent or fix the deformation (see column 6:60-65).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the invention of BRIDGES ET AL by adding the method steps of providing hydration means and using the hydration means, as taught by KAIHOVIRTA ET AL, to hydrate the box flaps of BRIDGES ET AL as necessary, since the box flaps are formed from paperboard and are subject to the same deformation for the same reasons.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Paradiso. The examiner can normally be reached Monday-Friday, 9:30 p.m. – 6:00 p.m. (ET).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada, can be reached at the number listed below.

Any inquiry of a general nature or relating to the status of this application should be directed to the 3700 Technology Center Receptionist.
